

Don't worry

# Resinol

will probably clear away those pimples

It is really surprising how a few days' use of Resinol Ointment and Resinol Soap will improve most poor complexion. Unless the trouble is due to some serious internal disorder, pimples, redness and roughness quickly disappear and the skin usually becomes clear and fresh again.

All druggists sell Resinol Ointment and Soap.

### SOUTH ROYALTON

Howard Davis, 15-Year-Old Boy, Caught By Deputy Sheriff.

Monday evening Sheriff Fred Putnam of Bethel and Guy Clough of Rochester were in town looking for a boy driving a black horse hitched to a roadster. He had been traced as far as Royalton Center, but it was not known just the direction he took from there. It was thought he might have gone south into the state of New Hampshire, where he had formerly lived. He was finally located at the Willard Adams farm on the Happy Hollow road in this town. Howard Davis, a boy of 15, an orphan, who lived with Hosea Fuller of Granville, took Mr. Fuller's best horse Monday morning and left home. The boy is in Sheriff Clough's care, and it is not known just how the case will be disposed of until further investigation has been made.

Mrs. Laura Cole was in Bethel on Monday.

A. G. Whitman and Rev. J. H. Mosley spent Tuesday night with Mr. and Mrs. C. P. Tarbell at Silver Lake, Barnard.

The Good Samaritan Brotherhood of the M. E. Church met at the home of Walter Dewey Monday evening. New officers were elected for the coming six months.

Mrs. Edwina E. Wheeler, who has been visiting relatives and friends in Richmond, Canada and Nashua, N. H., returned to her home at E. A. Flint's yesterday.

### PRECIOUS STONES IN 1918.

Report by the United States Geological Survey.

The value of the precious stones annually produced in the United States from the beginning of this century to 1918 has been about one-third of a million dollars. In 1914 and in every year since, the annual value of the output has dropped considerably, and in 1918 it dropped to \$106,523, the lowest reported since the United States geological survey began to collect statistics of gem production, in 1883, with the single exception of 1896, when it was \$97,850.

The report on the production of precious stones in 1918, just published by the United States geological survey, department of the interior, ascribes the decrease in the value of the precious stones produced to the military enlistment of many gem miners, the general scarcity of labor, and the poor market.

The output consisted chiefly of the sapphire variety of corundum, which is nearly all used as mechanical bearings in watches and other instruments that require practically non-wearing, frictionless bearings. Other less valuable and softer minerals used for this purpose are garnet and some forms of hard, compact silica, known as agate and chalcedony. The annual value of the output of the four gem minerals, corundum, quartz, tourmaline, and turquoise, amounts to over four-fifths of the total value of all the precious stones produced in the United States.

Montana, Nevada, California, Colorado, Maine, and Arizona are the chief gem-producing states, but from 20 to 30 states annually report some production.

Several relatively large diamonds were found in Arkansas in 1918, notably a canary-colored octahedron weighing nearly 18 carats and a number of smaller stones weighing several carats each. The value of all the diamonds produced in the United States, however, in no year exceeds a few thousand dollars.

The report also records the finding of two large diamonds in South Africa, weighing about three ounces each. It is estimated that about half the diamonds in the world are owned by the United States and that their value is over a billion dollars. With the elimination of competition from German Southwest Africa, 95 per cent of the world's production of diamonds will be under the control of the De Beers Consolidated Mines Co. and its selling agents.

The report gives a short list of the industrial uses of precious stones of gem quality and full descriptions of the Iceland spar variety of calcite and of optical fluorite, states the special uses and necessary qualifications of the material, and includes lists of buyers.

The report on the production of precious stones in 1917, copies of which may still be obtained free by addressing the director, United States geological survey, Washington, D. C., contains a full list of gem names, each followed by the name of the mineral species to which the gem belongs. A second list gives names of the mineral species, each followed by all the names of the corresponding gem.

A Muddled Moujik.

Mr. Tower, former American ambassador to Russia, told this story of a typical moujik entering a railroad station and inquiring when a certain train would leave. He received the information and departed.

A little later, however, he was back again, asking the same question.

"Why," exclaimed the agent, "I told you that only a minute ago."

"You did truly," the moujik answered, "but it isn't myself that wants to know this time, it's my mate outside."—Boston Transcript.

An Editor's Troubles.

Fredonia Censor—"Many copies of our issue of Feb. 5 were so badly written as to be almost unreadable. We ran out of ink and borrowed some apple butter with which to complete the run. It must have been very poor apple butter, as it proved a flat failure for printing purposes."—Boston Transcript.

## LIQUOR RAIDER "CONVICTED"

By Alleged Moonshiners in the Mountains of West Virginia

"CONVICT" RELEASED BY FELLOW OFFICER

Then the Two Destroyed Two Stills and More Than 6,000 Gallons of Mash

Huntington, W. Va., July 23.—Seized by alleged moonshiners, brought before a Greenbrier county justice of the peace, and found guilty on a charge of bootlegging, was the experience of H. R. Ratliff, a state prohibition officer, who returned late yesterday from a tour into the hills. Ratliff was sentenced to serve 60 days in jail by the justice, but was rescued by Harry Fitzgerald, a brother officer, from an alleged sheriff who was escorting the convicted official to the bastille.

Ratliff and Fitzgerald went to Greenbrier county to investigate a report that many illicit stills were in operation there. The officers located two stills and Ratliff went to the village of Auto, W. Va., to telephone the department at Charleston for additional men to make the raid. While in Auto, Ratliff was arrested by alleged moonshiners at the point of revolvers, brought before the justice, charged with bootlegging and convicted.

Following the rescue of Ratliff by Fitzgerald, the officers destroyed two stills and more than 6,000 gallons of mash and swore out 10 warrants for Greenbrier county residents, who are charged with manufacturing moonshine.

### CEDED THROUGH MISTAKE.

German Newspaper Gives One Reason for Ceding of East Prussia to Poland.

Berlin, July 22 (Correspondence of the Associated Press).—The Boersen Zeitung asserts that East Prussia was ceded to Poland by the peace conference because of "a mistaken and incorrect scientific book published in 1917 by the American Geographical society containing an article entitled, 'The Boundaries of Language and Nationality,' by Leon Dominik."

The German newspaper avers that President Wilson was influenced by the "innocently false information of this article" which, it says, declared that Dantzig was 10 per cent Polish and that the present Polish corridor and neighboring East Prussia was purely Polish.

The Boersen Zeitung declares that, on the contrary, Dantzig is less than 5 per cent Polish. The newspaper disputes the Polish character of the corridor. It declares that it is certain that the article referred to was used in fixing the boundaries.

### NORTH FAYSTON

Mr. Willie of Ottawa, Can., has moved onto his farm recently purchased of Walter Corliss.

Mrs. Eliza Bennett has been moved to the home of her son, Edward Bennett of Waitsfield, to be cared for.

Mrs. Eliza Newton of Duxbury has been a visitor at the home of Mr. and Mrs. Ora Wisley the past week.

Mrs. Edson Foss, Mrs. M. J. Maloney, Mrs. Harold Harvey and Mrs. Snow, all of Waterbury, were in town Thursday.

Mr. and Mrs. Ralph Wisley and family of Stowe were visitors at the home of Ora Wisley Sunday.

Mr. and Mrs. Charles Wheeler, Mr. and Mrs. William Nelson and daughter, were in Burlington Sunday.

Mr. and Mrs. Bryan Marble returned to their home in Williamstown Sunday, after spending the past few days with friends here.

Mrs. Mary Martin of Roxbury, who had been called here on account of the serious illness of her sister, returned to her home Monday.

John Norton of Montpelier was a visitor in town one day last week.

"SI" Smith of Waitsfield was in town Monday.

Ore Wisley and James Somerville were in Moretown Monday.

Mildred Grandfield has gone to work for Herbert Ward of Moretown.

### VERSHERE

Mrs. Vance Conant is with her daughter, Mrs. Charles Bailey, in Cornish, N. H.

Mrs. Vera Roberts is ill at her father's, Don Orr's family and Mrs. O'Toole were in Waterbury last week.

Miss Maude Smith has returned to her home in Waitsfield.

Oscar Corse has finished his job in Chelsea and is at his home here.

Mrs. Caroline Straw, a much-respected citizen, died at the home of her only son Wednesday, July 16. The funeral was at the church Friday. Further notice will be given next week.

Samuel Ricker and Fred Straw are cutting hay in Cornish and Arthur Comstock on Mrs. Shanley's and Mr. Putnam's land; William Orr on the Darling and Corse farms and Don Orr on the Colton farm, north road. Some call for hay!

### SOUTH CABOT

Mr. and Mrs. Henry LaCount of Marshfield were Sunday visitors at E. M. Putnam's.

Azra Clark returned to Boston last Wednesday.

Guy and Leon Dow of Marshfield were guests at Lee Dow's Sunday.

Mr. and Mrs. James Clegg of Peacham were at C. M. Lamberton's Sunday.

Winthrop Colbeth and family of Barnet are passing a few days at E. M. Putnam's.

Over 60 persons attended the dance at Elsie Bovee's Saturday night.

L. O. Houghton was in Danville Sunday at the home of his daughter, Mrs. Orville Smith.

Mr. and Mrs. Arthur Reed, Mrs. Ira Reed and Mrs. C. M. Lamberton took an auto trip to Barre Monday.

Mr. and Mrs. A. G. Cassidy returned from Melrose, Mass., last week. They expect to stop at their farm for a few weeks. Mr. Cassidy is suffering with a broken leg, a bone below the knee being fractured while he was in Melrose.

Agnes Grace of Barre is visiting her grandmother, Mrs. George Gee, for a while.

Mr. and Mrs. Eric Bovee and baby of Barnet were at his mother's over the week end.

Earl Maxfield returned to his home in Plainfield last week.

Fred Needham is in Peacham for a few days.

Mr. and Mrs. Arthur Huse and Mrs. Eva Huse of Barre visited at Hayes Bassett's Saturday and Sunday.

Mrs. Addie Clegg of Peacham visited at C. M. Lamberton's part of last week.

Allen Smith and George Gee were in Montpelier and Barre on business one day last week.

Mrs. Ernest Brown is on the sick list.

### Let Us Stand Off.

Our vision is impaired by getting too close. We do not get far enough away from ourselves and our problems to see them in a true relation. It is like trying to see the lines on our palms by holding our hands an inch away from our eyes. Supposing we would go up in a balloon or an aeroplane and look from high down at Burlington, where we live. We would see that the house where we dwell is just one among many houses—that it is very small as compared with all other houses as a whole.

We would see that the business concern where we are employed or where we employ others is small as compared to other business institutions, and particularly so as compared to the entire community. We would see that the streets, the trolley lines, the railroads and the telegraph and the telephone lines are the devices of transportation and communication by which the community is brought into relation, not only with itself but with other communities.

We would also see by this balloon and aeroplane view that other men and other women in Burlington, like ourselves, were very small as related to all other individuals as a whole, or to any one of the many single institutions and particularly the community as a whole; that one man would have to be a very large object—about seven miles high and be able to take steps about one and one-half miles long before a society of ordinary sized men would take notice of him purely for his own sake. This comparison does not mean that we should depreciate ourselves by feeling that any one of us is too small to be of consideration. We are the whole consideration. This comparison does mean that we should depreciate ourselves in relation to the whole.

Happiness and prosperity is in our relation to others; nature as expressed in human society. Our true happiness and stable prosperity is first in seeing this relation to others and then the efficiency with which we serve them.—Burlington News.

## Creamy College Ices

Most college ices are, at least, pleasant to look upon. But their appearance hasn't much to do with their quality. If, however, under the syrups you have chosen there is a generous scoopful of smooth, true-fruit-flavored Jersey Ice Cream

you know then that you are getting a college ice that is a college ice—one that costs the dealer more than he would have to pay for just ordinary ice cream. Try Jersey today, in bulk or Tripl-Seal bricks and learn how good ice cream can be.

for sale by

Cummings & Lewis, Druggists  
Barre, Vermont

Your dealer pays more for Jersey because he knows it is pure and will give you entire satisfaction in every respect.

### MINIMUM FEDERAL WAGE \$3 EXCEPT IN POSTOFFICE

House Passes Bill, 368 to 47—Exclusive of War-Time Bonus of \$240 a Year.

Washington, July 23.—By a vote of 368 to 47, the House yesterday passed the bill providing a minimum wage of \$3 for all government employees except those in the postal service. The wage is exclusive of the war-time bonus of \$240 a year allowed employees. The measure now goes to the Senate.

### BOMBARDED WITH FLOWERS.

Prince of Wales Given Honor by English Children.

London, July 23 (Correspondence of the Associated Press).—Children strewed with flowers the path of the prince of Wales and bombarded his automobile with roses when he visited recently the coal mining regions of South Wales and went into a mine. The prince scored with the coal miners of Rhondda valley by telling them that it was not his fault that it was his first visit and that his absence was due to the war.

On his way to the mine he surprised one woman by asking to see her house and garden. He stopped his car when another woman held up her baby to give him a rose.

Arriving at Owymer pit, the prince donned the cap and overalls of a miner, and gratefully accepted from the foreman a silver safety lamp, the gift of the management. Miners and their families crowded around him and cheered while the prince called for the cage to rise from the depths of the shaft.

Suddenly there was heard the sound of singing apparently from the bowels of the earth. The cage came in view bringing a small party of miners, black with coal dust, straight from the toil of the pit and singing a Welsh anthem. When the singing stopped the prince and his official guides then stepped into the cage, and, swiftly but very carefully, were lowered into the mine.

At the bottom of the shaft someone had written on a bank timber with white chalk: "Welcome to our soldier prince." The prince was manifestly pleased, and asking for chalk, wrote beside it, "Thank you," and signed it "Edward P."

Then they took him through the mines, showed him the ventilation system which guards the lives of the hundreds of men and boys while they work, showed him the "working faces" where miners were digging coal, and explained to him some of the difficulties attending the underground life of the toilers.

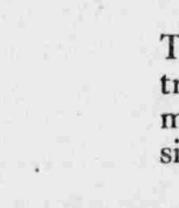

He insisted on trying it himself, and taking the pick handed to him by a grimy old miner, struck a few vigorous blows. Later, while thanking the people for his reception, he said he could appreciate the strenuous character of a miner's work.

## GERMANS RIOT AND TEN SHOT

Factions Got into a Row at Meeting of Majority Socialists

REDS BROKE UP THE MEETING AT BERLIN

Attempt at Lynching Was Foiled by Hospital Helpers

Berlin, Tuesday, July 22 (By the Associated Press).—Ten persons were shot during disorders which attended the breaking up of a majority socialist meeting by communists and Spartacists here yesterday. Those attending the meeting, which was held in the trades union building, attempted to lynch the man who fired the shots, but he was saved by hospital helpers, who were in the building.

Several majority socialist meetings, held late yesterday, did not develop as smoothly and quietly as they began. Communists and Spartacists by a prearranged plan smuggled fellow radicals into where the majority socialists were congregated and there broke up the meetings by cat calls and other noises, and even by violence.

At countless meetings the majority socialist speakers gave up attempting to speak after half an hour of shouting and in the trades union building, where the biggest meeting was held, chairs, beer bottles, glasses and even tables were flung about in a successful attempt to break up the gathering.

The Berlin press is indignant at the uproar. The Vorwarts heads its lead "Instead of Conciliating the People—Civil War." The people's Gazette calls the day "The Senseless Strike Monday."
